Journal of PHOTOCHEMISTRY AND PHOTOBIOLOGY A: CHEMISTRY

Subject Index of Volume 106

Ablation
laser molecular implantation into polymer solids induced by irradiation below ablation threshold, 3
submicrometre ablation on polymer surfaces, 15
4-Acetylbiphenyl
effects of solvent and cyclodextrin on the photophysical properties of 4-acetylbiphenyl: intramolecular charge transfer associated with hydrogen-bonding effect, 161
Acetylides
luminescent coinage metal clusters of acetylides and chalcogenides, 75
Activated diffusion
laser molecular implantation into polymer solids induced by irradiation below ablation threshold, 3
Active oxygen species
photocatalytic bactericidal effect of TiO_2 thin films: dynamic view of the active oxygen species responsible for the effect, 51
Aniline derivatives
photoionization mechanism of aniline derivatives in aqueous solution studied by laser flash photolysis, 119
Aqueous medium
photoionization mechanism of aniline derivatives in aqueous solution studied by laser flash photolysis, 119
Aqueous solution
pulse radiolysis and flash photolysis studies of arylalkylamines in aqueous solutions — primary photoprocesses, 127
Arylalkylamines
pulse radiolysis and flash photolysis studies of arylalkylamines in aqueous solutions — primary photoprocesses, 127
Atmospheric reactions
photochemistry relating to atmospheric reactions in the stratosphere, 105
Atomic force microscopy
AFM study of excimer laser ablation of polythiophene films, 21

Chalcogenides
luminescent coinage metal clusters of acetylides and chalcogenides, 75
Chemical studies
chemical studies on the nonlinear optics of coordination compounds, 85
Coordination compounds
chemical studies on the nonlinear optics of coordination compounds, 85
Co-precipitation
photochemical separation and co-precipitation of lanthanides in nitric acid solution, 57
Cryogenic Ar matrix
photoinduced dehydrogenation of 1,4-cyclohexadiene by NO_2 in a cryogenic Ar matrix, 113
Cryogenic matrix
surface reaction of organic materials by laser ablation of matrix-isolated photoreactive aromatic azido compound, 9

Cyclodextrin
effects of solvent and cyclodextrin on the photophysical properties of 4-acetylbiphenyl: intramolecular charge transfer associated with hydrogen-bonding effect, 161
1,4-Cyclohexadiene
photoinduced dehydrogenation of 1,4-cyclohexadiene by NO_2 in a cryogenic Ar matrix, 113

Dual $^3(d-d)$ emission
dual $^3(d-d)$ emission of $[RhL_2Cl_2](PF_6)$ (L ≡ 2,2′-bipyridine and 1,10-phenanthroline) in a crystal in the temperature range 77–536 K, 61

Electron donor size effect
photoinduced intramolecular electron transfer and exciplex formation in anthracene and pyrene binary compounds, 169
Electron transfer from DNA
design of photochemical DNA-cleaving molecules via electron transfer, 141
Emission
violet emission observed from phthalocyanines, 177
Emission kinetic spectroscopy
dual $^3(d-d)$ emission of $[RhL_2Cl_2](PF_6)$ (L ≡ 2,2′-bipyridine and 1,10-phenanthroline) in a crystal in the temperature range 77–536 K, 61
Escherichia coli
photocatalytic bactericidal effect of TiO_2 thin films: dynamic view of the active oxygen species responsible for the effect, 51
Excimer laser
submicrometre ablation on polymer surfaces, 15
Excimer laser ablation
surface reaction of organic materials by laser ablation of matrix-isolated photoreactive aromatic azido compound, 9
AFM study of excimer laser ablation of polythiophene films, 21
Exciplex formation
photoinduced intramolecular electron transfer and exciplex formation in anthracene and pyrene binary compounds, 169
External electric field
effect of an external electric field on photoinduced interlayer electron transfer in Langmuir–Blodgett films as revealed by the effect of the field on fluorescence: a D–A system of thiacyanine and viologen, 37

Flash photolysis
pulse radiolysis and flash photolysis studies of arylalkylamines in aqueous solutions — primary photoprocesses, 127
Fluorescence
laser molecular implantation into polymer solids induced by irradiation below ablation threshold, 3
Fundamental aspects
pulsed laser ablation of polyimide: fundamental aspects, 27

Intersystem crossing
intersystem crossing in jet-cooled naphthalene clusters as studied by sensitized phosphorescence excitation spectroscopy, 101

Elsevier Science S.A.

Intramolecular charge transfer
effects of solvent and cyclodextrin on the photophysical properties of 4-acetylbiphenyl: intramolecular charge transfer associated with hydrogen-bonding effect, 161
Intramolecular electron transfer
photoinduced intramolecular electron transfer and exciplex formation in anthracene and pyrene binary compounds, 169

Jet-cooled naphthalene clusters
intersystem crossing in jet-cooled naphthalene clusters as studied by sensitized phosphorescence excitation spectroscopy, 101
Jet cooling
vacuum UV photoionization mass spectrometry of small polymers using jet cooling, 31

$K_2La_2Ti_3O_{10}$
a highly active photocatalyst for overall water splitting with a hydrated layered perovskite structure, 45
KrF radiation
submicrometre ablation on polymer surfaces, 15

Langmuir–Blodgett films
effect of an external electric field on photoinduced interlayer electron transfer in Langmuir–Blodgett films as revealed by the effect of the field on fluorescence: a D–A system of thiacyanine and viologen, 37
Lanthanides
photochemical separation and co-precipitation of lanthanides in nitric acid solution, 57
Laser flash photolysis
photoionization mechanism of aniline derivatives in aqueous solution studied by laser flash photolysis, 119
Laser implantation
laser molecular implantation into polymer solids induced by irradiation below ablation threshold, 3
Layered perovskite-type compounds
a highly active photocatalyst for overall water splitting with a hydrated layered perovskite structure, 45

Metal clusters
luminescent coinage metal clusters of acetylides and chalcogenides, 75
Mononuclear ruthenium organometallic complexes
a study of substitution pathways in mononuclear ruthenium organometallic complexes by photochemistry, 67

N-[(*N*-trimethylsilylmethyl)aminoalkyl]phthalimides
single electron transfer-induced photocyclization reactions of *N*-[(*N*-trimethylsilylmethyl)aminoalkyl]phthalimides, 145
Ni-loaded photocatalysts
a highly active photocatalyst for overall water splitting with a hydrated layered perovskite structure, 45
Nitric acid solution
photochemical separation and co-precipitation of lanthanides in nitric acid solution, 57
NO_2
photoinduced dehydrogenation of 1,4-cyclohexadiene by NO_2 in a cryogenic Ar matrix, 113
Nonlinear optics
chemical studies on the nonlinear optics of coordination compounds, 85

Pentafluorophenylazide
surface reaction of organic materials by laser ablation of matrix-isolated photoreactive aromatic azido compound, 9
1,10-Phenanthroline
dual $^3(d-d)$ emission of $[RhL_2Cl_2](PF_6)$ ($L \equiv 2,2'$-bipyridine and 1,10-phenanthroline) in a crystal in the temperature range 77–536 K, 61
Photocatalytic bactericidal effect
photocatalytic bactericidal effect of TiO_2 thin films: dynamic view of the active oxygen species responsible for the effect, 51
Photocatalytic decomposition
a highly active photocatalyst for overall water splitting with a hydrated layered perovskite structure, 45
Photochemical DNA cleaver
design of photochemical DNA-cleaving molecules via electron transfer, 141
Photochemical precipitation
photochemical separation and co-precipitation of lanthanides in nitric acid solution, 57
Photochemistry
a study of substitution pathways in mononuclear ruthenium organometallic complexes by photochemistry, 67
photochemistry relating to atmospheric reactions in the stratosphere, 105
Photocyclizations
single electron transfer-induced photocyclization reactions of *N*-[(*N*-trimethylsilylmethyl)aminoalkyl]phthalimides, 145
Photohydration
substituent effects on the photohydration of 1-aryl-5,5-dimethyl-1,3-hexadiynes, 155
Photoinduced dehydrogenation
photoinduced dehydrogenation of 1,4-cyclohexadiene by NO_2 in a cryogenic Ar matrix, 113
Photoinduced interlayer electron transfer
effect of an external electric field on photoinduced interlayer electron transfer in Langmuir–Blodgett films as revealed by the effect of the field on fluorescence: a D–A system of thiacyanine and viologen, 37
Photoionization mechanism
photoionization mechanism of aniline derivatives in aqueous solution studied by laser flash photolysis, 119
Photoluminescence
luminescent coinage metal clusters of acetylides and chalcogenides, 75
Phthalocyanines
violet emission observed from phthalocyanines, 177
Polyimide
pulsed laser ablation of polyimide: fundamental aspects, 27
Polymer
laser molecular implantation into polymer solids induced by irradiation below ablation threshold, 3
Polymer film
surface reaction of organic materials by laser ablation of matrix-isolated photoreactive aromatic azido compound, 9
Poly(α-methylstyrene)
submicrometre ablation on polymer surfaces, 15
Polystyrene
submicrometre ablation on polymer surfaces, 15
Polythiophene films
AFM study of excimer laser ablation of polythiophene films, 21
Polyvinylcarbazole
transient absorption studies on 3,6-dibromo polyvinylcarbazole and its model compounds, 135
Primary photoprocesses
pulse radiolysis and flash photolysis studies of arylalkylamines in aqueous solutions — primary photoprocesses, 127
Pulsed laser ablation
pulsed laser ablation of polyimide: fundamental aspects, 27
Pulse radiolysis
pulse radiolysis and flash photolysis studies of arylalkylamines in aqueous solutions — primary photoprocesses, 127

Quantum efficiencies
single electron transfer-induced photocyclization reactions of *N*-[(*N*-trimethylsilylmethyl)aminoalkyl]phthalimides, 145

R2PI spectra
resonant two-photon ionization spectra of van der Waals complexes: *o*-, *m*- and *p*-$C_6H_4R_2...N_2$ (R ≡ F, CH_3), 91
Reactive intermediate
surface reaction of organic materials by laser ablation of matrix-isolated photoreactive aromatic azido compound, 9
$[RhL_2Cl_2](PF_6)$ (L ≡ 2,2′-bipyridine
dual $^3(d-d)$ emission of $[RhL_2Cl_2](PF_6)$ (L ≡ 2,2′-bipyridine and 1,10-phenanthroline) in a crystal in the temperature range 77–536 K, 61

Sensitized phosphorescence excitation spectroscopy
intersystem crossing in jet-cooled naphthalene clusters as studied by sensitized phosphorescence excitation spectroscopy, 101
α-Silyl electron donors
single electron transfer-induced photocyclization reactions of *N*-[(*N*-trimethylsilylmethyl)aminoalkyl]phthalimides, 145
Single electron transfer
single electron transfer-induced photocyclization reactions of *N*-[(*N*-trimethylsilylmethyl)aminoalkyl]phthalimides, 145
Small polymers
vacuum UV photoionization mass spectrometry of small polymers using jet cooling, 31
Stratosphere
photochemistry relating to atmospheric reactions in the stratosphere, 105
Submicrometre periodic structures
submicrometre ablation on polymer surfaces, 15
Substituent effects
substituent effects on the photohydration of 1-aryl-5,5-dimethyl-1,3-hexadiynes, 155
Substitution pathways
a study of substitution pathways in mononuclear ruthenium organometallic complexes by photochemistry, 67
Supersonic jet
resonant two-photon ionization spectra of van der Waals complexes: *o*-, *m*- and *p*-$C_6H_4R_2...N_2$ (R ≡ F, CH_3), 91
Surface reaction
surface reaction of organic materials by laser ablation of matrix-isolated photoreactive aromatic azido compound, 9

Thiacyanine
effect of an external electric field on photoinduced interlayer electron transfer in Langmuir–Blodgett films as revealed by the effect of the field on fluorescence: a D–A system of thiacyanine and viologen, 37
TiO_2 thin film
photocatalytic bactericidal effect of TiO_2 thin films: dynamic view of the active oxygen species responsible for the effect, 51
Transient absorption
transient absorption studies on 3,6-dibromo polyvinylcarbazole and its model compounds, 135
Two-photon excitation
violet emission observed from phthalocyanines, 177

Vacuum UV photoionization mass spectrometry
vacuum UV photoionization mass spectrometry of small polymers using jet cooling, 31
van der Waals complex
resonant two-photon ionization spectra of van der Waals complexes: *o*-, *m*- and *p*-$C_6H_4R_2...N_2$ (R ≡ F, CH_3), 91
Viologen
effect of an external electric field on photoinduced interlayer electron transfer in Langmuir–Blodgett films as revealed by the effect of the field on fluorescence: a D–A system of thiacyanine and viologen, 37

Water splitting
a highly active photocatalyst for overall water splitting with a hydrated layered perovskite structure, 45
